Brief Description

Type C Hub expands your device capabilities depending on which model is used. Please check the general description to introduce Type C Hub.

Use the HDMI port to output high-resolution video to your 4k monitor screen. Simply, connect an HDMI cable from the Type C Hub to your external monitor to view crystal-clear display. It simply requires a direct HDMI to HDMI connection. This option is also available with VGA (option).

Type C Hub is offering more ports for more convenience, all without sacrificing your USB.

USB-C PD transfer speeds up to 40 Gbps, USB 3.0/USB-C port up to 5 Gbps. You also have the option to charge your other appliances with PD (Power Delivery) offering pass-through charging.

Accessing your media has never been easier with the Type C Hub and no drivers are required to read/write SD/TF Card Reader.

Type C Hub allows you to add connection to the network with RJ45 port.

Available in 3 elegant colors: Black, Space Gray, Silver.

Type C Hub is certifiable.
